Vol. 278, Nos. 1–4 **July 25, 2003**

Decoupling of modeling and measuring interval in groundwater time series analysis based on response characteristics
W.L. Berendrecht, A.W. Heemink, F.C. van Geer and J.C. Gehrels 1
Evaluating the potential for measuring river discharge from space
D.M. Bjerklie, S. Lawrence Dingman, C.J. Vorosmarty, C.H. Bolster and R.G. Congalton 17
Reconstruction of long-term winter streamflow in the Gulf of California continental watershed
L. Brito-Castillo, S. Díaz-Castro, C.A. Salinas-Zavala and A.V. Douglas 39
New experimental techniques for pneumatic tomographical determination of the flow and transport parameters of highly fractured porous rock samples
C.I. McDermott, M. Sauter and R. Liedl 51
Predicting preferential water flow in soils by traveling-dispersive waves
L. Di Pietro, S. Ruy and Y. Capowiez 64
Effectiveness of groundwater nitrate removal in a river riparian area: the importance of hydrogeological conditions
V. Maître, A.-C. Cosandey, E. Desagher and A. Parriaux 76
Extreme discharge events in the Paraná River and their climate forcing
I.A. Camilloni and V.R. Barros 94
Generating rainfall fields using principal components (PC) decomposition of the covariance matrix: a case study in Mexico City
C. Bouvier, L. Cisneros, R. Dominguez, J.-P. Laborde and T. Lebel 107
The impact of finite flow domain size on the statistical properties of the flow system in heterogeneous porous media
C.-M. Chang and M.W. Kemblowski 121
Estimating recharge thresholds in tropical karst island aquifers: Barbados, Puerto Rico and Guam
I.C. Jones and J.L. Banner 131
Utilization of regression models for rainfall estimates using radar-derived rainfall data and rain gauge data
Z. Sokol 144
Hyporheic exchange of reactive and conservative solutes in streams—tracer methodology and model interpretation
K. Jonsson, H. Johansson and A. Wörman 153
Data-based comparisons of moments estimators using historical and paleoflood data
J.F. England Jr., R.D. Jarrett and J.D. Salas 172
On-line detection of errors in tipping-bucket raingauges
G.J.G. Upton and A.R. Rahimi 197
Study of parameter stability of a lumped hydrologic model in a context of climatic variability
H. Niel, J.-E. Paturel and E. Servat 213
Sulfide oxidation and sulfate reduction in a shallow groundwater system (Oderbruch Aquifer, Germany)
G. Massmann, M. Tichomirowa, C. Merz and A. Pekdeger 231
Changes in the timing of high river flows in New England over the 20th Century
G.A. Hodgkins, R.W. Dudley and T.G. Huntington 244
On detecting anomalous behaviour in runs
R.L. Hughes 253
